ABSTRACT

This booklet provides a description of each of the 237 adult literacy projects funded in fiscal year 1990 by the Library Literacy Program, Title VI of the Library Services and Construction Act (LSCA). The projects are keyed to a list of over 90 literacy activities that could be offered by libraries, thus showing the scope of each project and enabling the reader to identify the libraries working in specific areas of interest. The first of three parts of this report provides an exhaustive list of literacy activities culled from all of the projects, including activities related to: students and tutors, training, literacy resources, literacy materials, specialized instruction, technology, targeted populations, coalition building and interagency cooperation, public awareness, evaluation, general services, and dissemination. Each of the activities listed is assigned a code. The second part of the booklet lists each of the projects alphabetically by state, and provides the name of the library, its location, the director's name, the amount of the grant, and the relevant activity codes. The analysis of fiscal year 1990 applications and grants presented in the third part provides statistics on the applications received and funded. (MAB)

Foreword

The Library Literacy Program, Title VI of the Library Services and Construction Act (LSCA), makes grants to state and local public libraries to support adult literacy projects. The program has been funded at approximately $5 million annually since fiscal year 1986, the first year of the program. Grants are awarded on a competitive basis.

This booklet provides a description of each project funded in fiscal year 1990. The projects are keyed to a list of over 90 literacy activities that could be offered by libraries, thus showing the scope of each project and enabling the reader to identify the libraries working in specific areas of interest. This list also can be used by the reader to generate ideas for starting or expanding a literacy project.

The LSCA Title VI program is administered by Blane K. Dessy, Acting Director of the Library Development Staff; Carol Cameron Lyons and Barbara Humes, Program Officers; and Patricia Murray, Program Assistant.

Introduction

The Library Literacy Program, Title VI of the Library Services and Construction Act (LSCA), is a discretionary grants program providing support to state and local public libraries for literacy programs. State and local public libraries apply directly to the U.S. Department of Education for grants. (The maximum amount per grant in FY 1990 was $25,000.) State libraries may use grant funds to coordinate and plan library literacy programs and to arrange for the training of librarians and volunteers to carry out such programs. Local public libraries may use grant funds to promote the use of the voluntary services of individuals, agencies, and organizations in providing literacy programs and to acquire library materials, use library facilities, and train volunteers for local literacy programs.

The FY 1990 grants were reviewed by a panel of 89 literacy experts representing local and state libraries, literacy councils, state departments of education, institutions of higher education, and private or other literacy efforts. In FY 1990, there were 237 grants totaling $5,365,000.

Library Literacy Program: Description of Funded Projects, 1990 presents a description of each library literacy project that operated with funding from the LSCA Title VI, Library Literacy Program during FY 1990.

Part I provides an exhaustive list of literacy activities culled from all of the projects.

Part II presents descriptions of each project. The projects are listed alphabetically by state, giving the name of the library, its location, the director's name, the funded amount, and the activity codes. Each of the projects has been reviewed and assigned codes corresponding to the activities listed in Part I. Activity codes were assigned to each project if those activities were clearly stated in the proposal as objectives or key activities of the project and if they were supported by LSCA Title VI funds. The coded projects give the reader an idea of the scope of each project. Conversely, if interested in a particular activity, such as providing a book discussion component (E7), the reader can identify the libraries that have incorporated that activity in their projects by scanning the chart, state by state, for that particular code.

Part III is an analysis of FY 1990 applications and grants. It provides statistics on the applications received and funded.
